

A MICAD COMPANY

A high-speed photograph of a water droplet falling into a pool of water, creating a splash. The scene is lit with a blue light, giving it a cool, clean appearance. The droplet is captured mid-fall, just above the splash.

THE SMART SOLUTION FOR
WATER HYGIENE SERVICE PROVIDERS

End to end management of water hygiene for service providers

Input ad hoc or scheduled samples, checks/inspections and temperatures from equipment and carry out water risk assessments using a smartphone or tablet.

Immediate alerts with warnings, failures, Risk Assessment recommendations and trending. Ability to add supporting comments and/or photos.

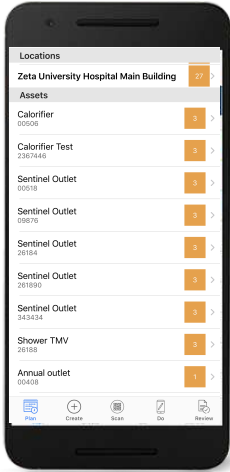

Synchronise data securely with the ZetaSafe cloud, where actions are prioritised, escalated and automatically sent to users.

Information is accessible 24/7 for intelligent analysis via customisable dashboards. Highlight trends and priorities, create automatic reports and simplify your scheduling.

Consolidate data and trends across multiple sites, giving enterprise wide visibility of monitoring contracts and Risk Assessments.

Collect, create, complete, submit with integrated mobile applications

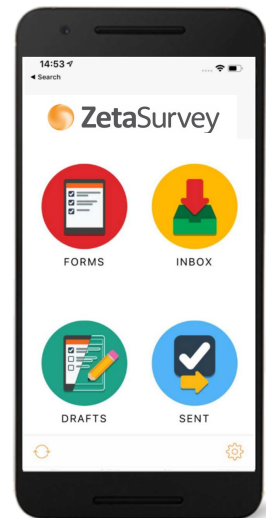

ZetaMobile

- Input ad hoc or scheduled water hygiene checks and inspections in accordance with HSG 274, ACoP L8 and HT04-01.
- Native Android and iOS mobile applications.
- Immediate alerts with warnings, failures and remedials.
- Ability to add supporting comments and/or photos.

ZetaSurvey

- Create scheduled, fully customisable form-based water Risk Assessments using pre-populated commentary, auto fill fields, pictures, co-ordinates, graphics, signatures etc.
- Complete detailed surveys, inspections and audits using a smartphone or tablet.
- Save documents as drafts or submit to a colleague or line manager for review and quality assurance.
- Submit surveys to the ZetaSafe cloud, where actions can be prioritised and escalated directly to the ZetaSafe dashboard and online reporting suite.
- Redeploy forms back to the mobile app for re-inspection and edits.
- Risk Assessment recommendation and actions automatically synchronised to the ZetaSafe dashboard for management, escalation and tracking.

ZetaSafe

All data collected via ZetaMobile and ZetaSurvey is seamlessly synchronised with the ZetaSafe dashboard for complete visibility of your water hygiene compliance.

Input and manage ALL areas of water compliance in one place.

Real-time visibility for water hygiene service providers and their clients.

ZetaSafe connects with many trusted applications through seamless integration.

Explore ZetaSafe's Ecosystem at www.zetasafe.com/ecosystem

Tailored Professional Services

We provide a full range of services, from basic implementation support to advanced training and data acquisition services.

Go Live and Set Up

Take advantage of our professional services team who can configure ZetaSafe to ensure you are up and running seamlessly. ZetaSafe can import all clients and sites via CSV meaning fast deployment.

Training

We offer tailored training packages to ensure all staff are aware of the latest functionality.

Optimise & Configure

We can help you ensure ZetaSafe is configured in accordance with the latest guidance and legislation, through system health checks, data tidy ups and the use of workflows and automated reporting.

Software Integration

ZetaSafe's APIs allow integration with third party applications, such as CAFM systems or remote IOT Sensors.

Become even leaner

Standardise contract delivery across all sites with ZetaSafe, ZetaMobile and ZetaSurvey for all your water hygiene needs.
